Historical Background

John F. Kennedy International Secondary School Obiebiezena was established in 1963. The School was destroyed during the Nigerian civil war that ended in 1970. Since then successive governments in Nigeria at both central and local levels have neglected the rehabilitation of the schools in that part of the country. Fund raising for rehabilitation of John F. Kennedy International Secondary School is being spearheaded by a duly U.S registered nonprofit organization(<http://obiebiezenaprogressiveassociationusa.org/>) that seeks to rebuild the institution.
